Yellowknife, NT
X1A 1N6

September 16, 2011

Dear David Wasylciw,

Subject: Requesting your legislative support for the regulation of naturopathic medicine under the upcoming umbrella health regulations act.

In the spring of 2011, the regulation of licensed naturopathic doctors was brought up in the legislative assembly due to strong support from the communities. As a result, the NTAND has been working positively with the health department, and naturopathic doctors have been formally added to the legislative proposal as a test case which will be coming to the House in the fall of 2011.

1) Are you aware of the situation above?

Yes No

2) If not, would you like the NTAND to provide you with more information?

Yes (email or phone)_david@wasylciw.com_____ No

3) If elected, are you committed to supporting the regulation of the naturopathic doctors under the new umbrella act in the NWT?

Yes No Not enough information

Natureopath have become a important link in the NWT continuum of care. Saying that, I believe standards should be established for certifying naturopathic doctors. The actual certification process should be administered and regulated by the industry perhaps by adopting Alberta standards and becoming part of the Alberta ND ;

We will be advertising your responses in *News North* prior to the election to help inform voters in support of this legislation. We look forward to your timely response.

In health,

Nicole Redvers, ND

NTAND Secretary
